This PR improves robustness of the llama-index-llms-google-genai integration:

- Fixes # (issue)

☐ Yes

☒ No

☒ Yes

☐ No

- ☒ Bug fix (non-breaking change which fixes an issue)
- ☐ New feature (non-breaking change which adds functionality)
- ☐ Breaking change (fix or feature that would cause existing functionality to not work as expected)
- ☐ This change requires a documentation update

☒ I added new unit tests to cover this change

☐ I believe this change is already covered by existing unit tests

- ☐ I have performed a self-review of my own code
- ☐ I have commented my code, particularly in hard-to-understand areas
- ☐ I have made corresponding changes to the documentation
- ☐ I have added Google Colab support for the newly added notebooks.
- ☒ My changes generate no new warnings
- ☒ I have added tests that prove my fix is effective or that my feature works
- ☒ New and existing unit tests pass locally with my changes
- ☐ I ran `uv run make format`; `uv run make lint` to appease the lint gods

Also, you would need to bump the version of the integration for it to be published

...index-integrations/llms/llama-index-llms-google-genai/llama_index/llms/google_genai/base.

```

357 +         try:
358 +             delete_uploaded_files(file_api_names, self._client)
359 +         except Exception:
360 +             logger.warning(
361 +                 "Failed to delete uploaded files from Google GenAI File API: %s",
362 +                 file_api_names,
363 +                 exc_info=True,
364 +             )

```

 AstraBert last week

Why not letting this error bubble up?

 AstraBert last week

Here and in the other places where similar logic is introduced

 Jayachander123 last week • edited ▾

Agreed. I've removed the try/except blocks here and in the async/streaming methods. Cleanup errors will now bubble up to the user. Also, I bumped the package version to 0.8.6 in pyproject.toml.
